

Agile Metrics with Dave Nicolette

Agile Metrics with Dave Nicolette

Toronto Agile Community is excited to bring you a new webinar, this time with Dave Nicolette, the author of "[Software Development Metrics](#)"

Ever been in long discussions about metrics on Agile projects, teams and organizations? Even heard how they can be gamed? Tried some of them but still don't see the results you were hoping for?

On this webinar, Dave will talk about some of the common metrics for Agile teams and organizations. He will give you the opportunity to ask questions about your current status or regarding metrics you want to start using. It is an opportunity you don't want to miss, so come with questions regarding your current situation and discussions you have on your company.

About Dave

Dave Nicolette has been an IT professional since 1977. He has served in a variety of technical and managerial roles. He has worked mainly as a consultant since 1984, keeping one foot in the technical camp and one in the management camp. As a lifelong learner, he has always been interested in exploring better ways to deliver business value through information technology. Dave is focused on bringing together the best of tried-and-true methods, and the best of leading-edge methods, to help businesses realize the maximum return on their IT investments and efforts.
