

ATT 2013 Speaker Bio - Alexei Zheglov

Alexei began his Agile quest about 10 years ago as a software engineer in the trenches of what we today call a lean startup. He continues it now as an Agile coach who infuses his practice with a lot of Lean thinking. Alexei is a founder of the first Limited WIP Society chapter in Canada, a group dedicated to exploring Lean, continuous improvement and modern management methods. Together with several other coaches and change agents, he is currently influencing Lean/Agile change in a software company of about 800 people.
