Open Space 2017

The Toronto Agile Community is happy to announce our eighth annual Open Space an event that provides an opportunity for all participants to share ideas and learn from each other.

Open Space Technology enables people to create inspired meetings and events. In Open Space meetings, participants create and manage their own agenda of parallel working sessions around a central theme of strategic importance.

The common result is a powerful, effective connecting and strengthening of what's already happening in the GTA Agile community. For more information about how Open Space works, see AboutOpenSpace.

This years topic is Simplicity
